PROFILE

Professional Summary

Software Developer with 13+ years of professional experience in application development, database engineering, business-process automation, and enterprise software. Currently pursuing an M.Sc. in Computer Science at the University of Rostock and building applied AI systems spanning agentic workflows, local LLM applications, RAG, and full-stack software. Combines a strong C#/.NET and SQL Server background with hands-on Python, FastAPI, LangGraph, PostgreSQL, Docker, Terraform, and AWS-oriented engineering.

STACK

Technical Skills

Applied AI

Agentic Workflows · RAG · LLM Applications · Structured Outputs · Tool Calling · Human-in-the-Loop · Guardrails · MCP

AI Stack

LangGraph · Ollama · Llama 3.2 · FAISS · Embeddings · Semantic Search · Faster-Whisper

Programming

Python · C# · VB.NET · TypeScript · JavaScript · SQL

Backend / Data

FastAPI · REST APIs · Pydantic · PostgreSQL · SQLAlchemy · Alembic · Redis · Celery · Microsoft SQL Server

Platform / Quality

Docker · Terraform · AWS ECS/Fargate · RDS · ElastiCache · GitHub Actions · pytest · mypy · Ruff · Bandit · pip-audit

PROJECTS

Selected Projects

AI Operations Agent - Production-Oriented Agentic Workflow Platform

v1.0.0 · 2026

Personal Project · GitHub

- Built a FastAPI + LangGraph workflow where schema-validated AI proposals pass deterministic policy checks before any operational action can execute.
- Implemented human-in-the-loop approval, allow-listed tools, PostgreSQL/Alembic persistence, Celery/Redis background processing, audit events, idempotency, and bounded retries.
- Added Docker, structured JSON logging, correlation IDs, health/readiness endpoints, blocking security gates, and Terraform-validated AWS ECS/Fargate architecture without overstating it as a live deployment.

AI Job Application Assistant - Evidence-Based CV & Job Matching

v1.6.1 · 2026

Personal Project · GitHub

- Built a local-first full-stack assistant that compares a PDF CV with a job description using MATCHED / PARTIAL / MISSING evidence states.
- Separated a deterministic, explainable 100-point scoring engine from local LLM generation and added guardrails against unsupported experience claims.
- Supports German/English analysis, ATS keywords, evidence-aware CV suggestions, tailored cover letters, interview questions, and latency reporting.

github.com/Mehrdad-Afshari/ai-job-application-assistant

AI Knowledge Assistant - Local RAG Document Q&A;

v1.0.0 · 2026

Personal Project · GitHub

- Built a privacy-first RAG application for PDF, TXT, and Markdown using FastAPI, Next.js, FAISS, Ollama, and Llama 3.2.
- Implemented persistent vector indexing, semantic retrieval, SSE streaming, document management, visible source attribution, unit tests, and GitHub Actions CI.

More projects and case studies: mehrdad-afshari.de/projects (including AI Meeting Assistant and Sokoban Solver).

EXPERIENCE

Professional Experience

Senior Software Developer & Database Developer

Dec 2016 - Mar 2024

Namaad Iran Co. · Tehran, Iran

- Developed and maintained enterprise applications using C#, VB.NET, .NET Framework, and Microsoft SQL Server.
- Designed database-backed solutions for HR, payroll, attendance, quality control, reporting, and data analysis; automated business processes and translated stakeholder requirements into maintainable software.

EXPERIENCE

Professional Experience

Freelance Web Developer

Self-Employed · Tehran / Remote

• Developed and maintained websites and online business solutions for SMEs; customized WordPress websites, themes, and plugins and handled deployment, maintenance, troubleshooting, and optimization.

Mar 2011 - Present

Web Designer

Honar Novin Parsian · Tehran, Iran

• Developed, optimized, and maintained corporate websites and web assets for digital advertising campaigns.

Oct 2021 - May 2022

IT Specialist

Abniye Naghshe Alborz · Tehran, Iran

• Managed IT infrastructure and support, resolved hardware/software issues, and supported technical documentation and AutoCAD projects.

Jan 2010 - Mar 2011

PORTFOLIO

Developer Portfolio

mehrdad-afshari.de - Bilingual Developer Portfolio

Personal Project · Vercel

• Built and deployed an English/German Next.js + TypeScript portfolio with reusable case studies, GitHub integration, technical SEO, structured data, canonical/hreflang metadata, Search Console verification, and Vercel deployment.

2026

EDUCATION

Education

M.Sc. Computer Science

University of Rostock · Rostock, Germany

Focus: software engineering, algorithms, artificial intelligence, and modern computing technologies.

2025 - Present

Master of Business Administration (MBA)

Kharazmi University · Iran

2016 - 2018

B.Sc. Computer Engineering

Islamic Azad University - Qazvin Branch · Iran

2009 - 2015

CREDENTIALS

Selected Certifications & Training

Anthropic Introduction to Agent Skills · Introduction to Model Context Protocol · AI Fluency · Claude Code
Microsoft AI in Azure · Generative AI & Agents · Computer Vision · Speech · Text Analysis
Google Cloud Responsible AI · Prompt Design · Generative AI · Large Language Models
NASA Open Science 101 · Open Science Essentials

LANGUAGES

Languages

Persian Native	German B2	English B1

EARLY CAREER

Additional Experience

PC Technician

Schooka Co. · Tehran, Iran

Hardware/software troubleshooting, basic computer repairs, and office support.

Jun 2008 - Sep 2008
