PROFILE

Professional Summary

Software Developer with 13+ years of experience in application development, database engineering, business process automation, and enterprise software. Currently pursuing an M.Sc. in Computer Science at the University of Rostock and building production-style AI applications with Python, FastAPI, RAG, local LLMs, speech-to-text, semantic retrieval, and modern full-stack technologies. Strong background in C#/.NET and SQL Server, combined with hands-on AI engineering and AI-assisted software development.

STACK

Technical Skills

AI & LLM

RAG · LLM Applications · Embeddings · Semantic Search · Vector Search · AI Agents · MCP · Prompt Engineering

AI / Speech Stack

Ollama · Llama 3.2 · Faster-Whisper · nomic-embed-text · FAISS · Claude · Azure AI

Programming

Python · C# · VB.NET · TypeScript · JavaScript · SQL

Backend & Web

FastAPI · REST APIs · SSE · SQLite · .NET Framework · Next.js · React · Tailwind CSS · WordPress

Data & DevOps

Microsoft SQL Server · Database Design · Git · GitHub · GitHub Actions · CI · Unit Testing · Vercel

PROJECTS

Selected AI Projects

AI Meeting Assistant - Local AI Meeting Intelligence

MVP v0.5.0 · 2026

Personal Project · GitHub

- Built an end-to-end workflow from audio upload to transcription, structured analysis, and grounded Q&A;.
- Implemented local speech-to-text with Faster-Whisper, AI analysis with Ollama / Llama 3.2, and persistent meeting data with SQLite.
- Added summaries, key points, action items, transcript Q&A;., meeting history, delete/clear actions, and transcript/notes export.
- Built the full-stack interface with FastAPI/Python and Next.js/TypeScript/Tailwind CSS; documented the architecture and released a portfolio-ready MVP.

github.com/Mehrdad-Afshari/ai-meeting-assistant

AI Knowledge Assistant - RAG-Based Document Q&A;

v1.0.0 · 2026

Personal Project · GitHub

- Built a local RAG application for PDF, TXT, and Markdown documents using FastAPI, Next.js, FAISS, Ollama, and Llama 3.2.
- Implemented semantic retrieval, persistent vector indexing, document management, SSE streaming, and source attribution.
- Added unit tests, GitHub Actions CI, and technical documentation covering architecture, case study, roadmap, and portfolio presentation.

EXPERIENCE

Professional Experience

Senior Software Developer & Database Developer

Dec 2016 - Mar 2024

Namaad Iran Co. · Tehran, Iran

- Developed enterprise business applications using C#, VB.NET, .NET Framework, and Microsoft SQL Server.
- Designed database-backed solutions for HR, payroll, attendance management, quality control, reporting, and data analysis.
- Automated business processes and translated stakeholder requirements into maintainable software solutions.

EXPERIENCE

Professional Experience

Freelance Web Developer

Self-Employed · Tehran / Remote

Mar 2011 - Present

- Developed and maintained websites and online business solutions for small and medium-sized businesses.
- Customized WordPress websites, themes, and plugins; handled deployment, maintenance, troubleshooting, and optimization.

Web Designer

Honar Novin Parsian · Tehran, Iran

Oct 2021 - May 2022

- Developed, optimized, and maintained corporate websites and web assets for digital advertising campaigns.
- Managed campaign websites and supported web-design requirements across marketing initiatives.

IT Specialist

Abniye Naghshe Alborz · Tehran, Iran

Jan 2010 - Mar 2011

- Managed IT infrastructure and support; diagnosed hardware/software issues and supported technical documentation and AutoCAD projects.

WEB PROJECT

Developer Portfolio

mehrdad-afshari.de - Bilingual Developer Portfolio

Personal Project · Vercel

2026

- Built and deployed a bilingual English/German portfolio with Next.js, TypeScript, Tailwind CSS, GitHub, and Vercel.
- Created reusable project and case-study pages with dedicated EN/DE content and integrated GitHub/architecture links.
- Implemented technical SEO with canonical URLs, hreflang alternates, sitemap/robots, JSON-LD structured data, breadcrumbs, and dynamic Open Graph metadata.
- Configured mehrdad-afshari.de as the primary domain and mehrdadafshari.de as the redirect domain; verified the domain in Google Search Console.

EDUCATION

Education

M.Sc. Computer Science

University of Rostock · Rostock, Germany

2025 - Present

Focus: computer science, software engineering, AI technologies, and advanced computing topics.

Master of Business Administration (MBA)

Kharazmi University · Iran

2016 - 2018

B.Sc. Computer Engineering

Islamic Azad University - Qazvin Branch · Iran

2009 - 2015

CREDENTIALS

Selected Certifications & Training

NASA Open Science 101 · Open Science Essentials (2026)

Anthropic Introduction to Agent Skills · Claude 101 · Claude Code 101 · Claude Code in Action · AI Fluency · MCP Fundamentals

Microsoft AI in Azure · Generative AI & Agents · Computer Vision · Speech · Text Analysis

Google Cloud Responsible AI · Introduction to Generative AI · Introduction to Large Language Models

LANGUAGES

Languages

Persian	German	English
Native	B2	B1

EARLY CAREER

Additional Experience

PC Technician

Schooka Co. · Tehran, Iran

Jun 2008 - Sep 2008

Hardware/software troubleshooting, basic computer repairs, and office support.
